Fundamentals – CEN and CENELEC standards are...

- Based on the national delegation principle
- Representing a Consensus among all interested parties, including industry & SMEs and societal stakeholders
- Voluntary
- Developed by independent organizations clearly distinct from authorities

CEN & CENELEC Standardization Sectors and Topics

CEN

Bio-based products

Chemicals

Construction

Food

Heating, Ventilation & **Air Conditioning**

Materials

Nanotechnologies

Pressure equipment

Services

CEN & CENELEC

Air and Space

Consumer products

Electric Vehicles

Energy and utilities

Health and safety

Healthcare

ICT

Machinery safety

Measurement

Medical equipment

Railways

Security and Defence

Smart Grids / Smart Meters

Transport and Packaging

CENELEC

Electrical engineering

Electromagnetic Compatibility (EMC)

Fibre-optic communications

Fuel Cells

Household Electrical Appliances

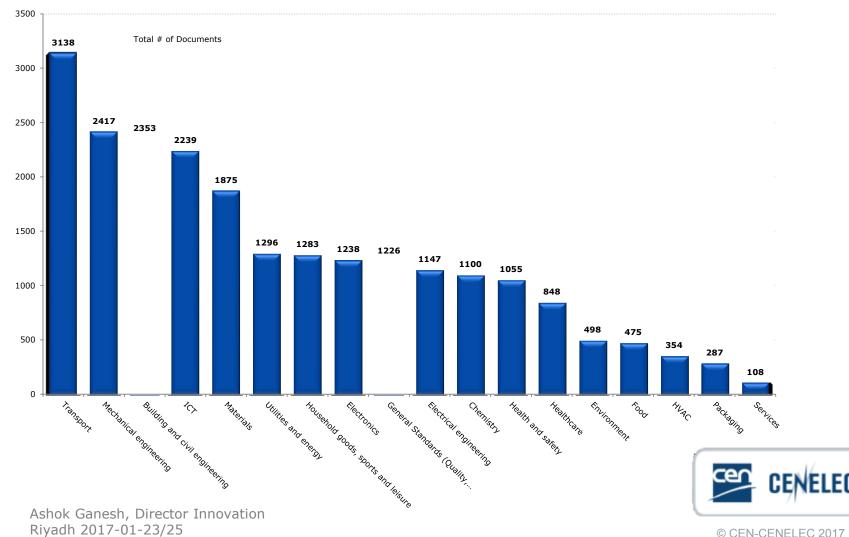

Solar (photovoltaic) electricity systems

Cross-sectoral issues

Accessibility | Environmental Protection | Energy-efficiency (Eco-Design)

Industry sector coverage

European Standards - Evolution

1960/1980 Industrialization Product standards Test Methods 1980/2000 Single market

- Machinery safety
- Pressure equipment
- Lifts
- Construction
- Toy safety

2000/2010 Processes & consumers

- ICT convergence
- eBusiness
- Management Systems
- Environment

2010 – 2020 New (green) Technologies

- Eco-design
- Renewable energy
- Smart grids
- Smart Cities

• loT, Cyber..

>2020

connected?

Digital economy?

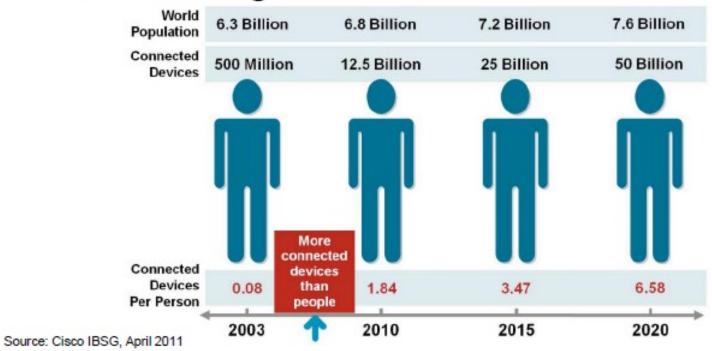

...meeting stakeholder needs

Smart City

Internet of Things

The world is changing

- European industry is digitizing
- Traditional sectors now need IT standardization responses
- Rapidly evolving regulatory landscape
- Growing number of standardization providers

Standardization Bodies Supporting Digitization

CEN and CENELEC sectors and Digitization

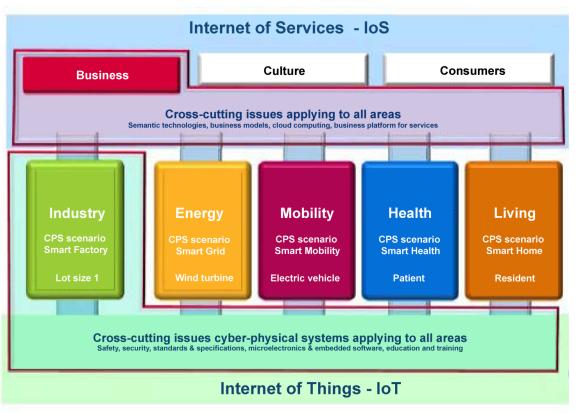

Industry sectors are undergoing digital transformation

Target sectors are longstanding and active stakeholders in CEN and CENELEC

Sectors and cross-cutting issues

Technology,
Connectivity,
Semantics,
Interoperability...

Sectors (verticals)

Cybersecurity, Functional safety, Data privacy...

CEN-CENELEC Strategy for Digitization

CEN and CENELEC projects in support of Digitization

Joint Initiative on Standardization JIS Action 14 'Digitization'

National initiatives ISO / IEC

Strategic alliances and partnerships

ETSI, oneM2M, AloTI,...

Digitization of CEN and CENELEC processes

Online Standardization

Content management

Specific IoT Pilot projects

Identification and Pilots Kick – Off

Data, Cyber-security Functional Safety,...

CEN-CLC-ETSI contributions to ICT Standardization priorities

5 Priorities for ICT Standardization

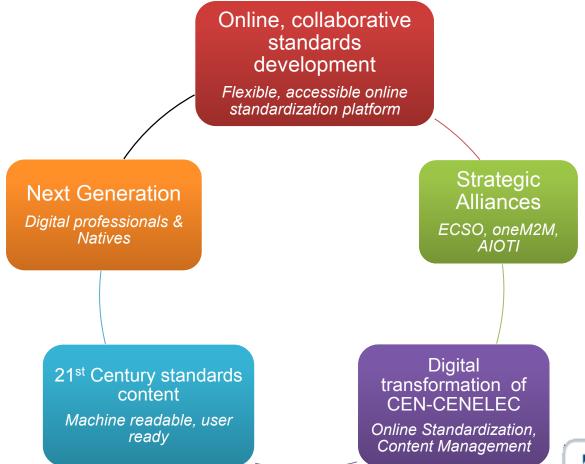

Strategic Plan - projects supporting Digitization

CEN & CENELEC supporting Digitization of European Industry

- European standardization: essential for the effective digitization of industry
- Vertical Sectors drive digitization, with digital technology providers, enabled by standards
- CEN CENELEC System's own digital transformation
- Support national digitization initiatives
- Cooperation with ISO and IEC
- Partnerships with ETSI and others (oneM2M, ECSO, AIOTI...)
- Robust and innovation-friendly patent policy

Thank you very much for your attention
